## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance: claims are allowable for the reason that the prior art does not teach or reasonably suggest the arrangement of the pair of mirrors i.e. first and second mirror, third mirror, fourth mirror and fifth mirror as set forth in the claimed combination, wherein the fifth mirror is configured to reflect the light incident from the lens in a direction substantially opposite to a direction in which the light is reflected from the third mirror to fourth mirror.

Sheng (US Patent No. 6,144,475) discloses the scanning module (Fig. 2) comprising a first, second, third and fourth mirrors, but these mirrors do not satisfy the arrangement claimed in the present invention, i.e. the first and second mirrors are not positioned substantially parallel relationship.

Christensen (US Patent No. 6,147,343) discloses the scanning module (Fig. 1) comprising a first, second and third mirrors, but lacks fourth and fifth mirrors in the module.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to
